Definitions of categories

Monochrome:

The PAGB/FIAP definition applies, i.e., black and white or monochrome images including black and white images modified by the addition of a single tone to the entire image.

A black and white image modified by partial toning or the addition of one colour to any part of the image is classified as colour.

Nature:

The depiction of living, untamed animals or uncultured plants in the natural habitat; also, geology and natural phenomena.

Images of domesticated animals or animals under any form of restraint are ineligible and should be entered in a different section.

Creative:

Although images in all sections will contain an element of creativity, in this new section the organisers are looking particularly for images showing an imaginative approach to produce an altered reality.
