Are you a member of any other photographic society and if so which?

It is normal for images entered in internal society competitions to be also considered as part of society entries in interclub competitions. It is assumed that you are happy for this to occur unless otherwise indicated.

I do not wish my images to be used for interclub competitions without explicit permission

***To keep in touch with our members electronically we have set up a SPS Yahoo Group. This is a private web based group that allows members to contact each other by e-mail about Society events and other items of interest. Full details can be provided by Richard Lloyd or Bob Breach. On joining you will automatically be included in the Yahoo Group unless you tick the box below.**

Please do not include my email in the SPS Yahoo Group
